Jacob Sanders

Substitute Teacher • STEM Background • Team Leader

Salt Lake City, UT area | 602-486-5777 | jtsanders87@gmail.com

SUMMARY

Team leader with an M.S. in Electrical & Computer Engineering and years of experience leading, training, and mentoring people, from university interns and early-career engineers to new hires on a UPS sort floor. Skilled at breaking complex ideas into clear, step-by-step explanations, keeping a group focused, and following through on a plan someone else wrote. Strong in math, science, and computer science. Available for full-day, half-day, and short-notice assignments.

EDUCATION

University of Utah — Salt Lake City, UT
M.S., Electrical & Computer Engineering • *B.S., Computer Engineering* — 2013

TEACHING & LEADERSHIP EXPERIENCE

PySando: Interactive Python Learning Platform — Personal Project
Creator — 2025 – Present

- Designed and built a self-paced course that teaches Python through short lessons and hands-on exercises, with instant feedback on every attempt
- Built an AI tutor that guides learners with hints and questions about their own work and is designed to never give away the answer, so students reason through problems themselves

The Honeydew App, Inc. — Salt Lake City, UT
Founder — April 2023 – February 2025

- Managed and mentored 4 University of Utah computer science interns: set weekly goals, assigned and reviewed their work, and coached them through unfamiliar tools and problems

Skullcandy — Park City, UT
Firmware Architect — October 2018 – March 2022

- Led a team of 3–5 engineers through multi-stage projects with fixed deadlines, keeping everyone aligned on priorities and team standards

Code Corporation — Draper, UT
Senior Firmware Engineer — August 2013 – October 2018

- Led a team of 3–4 engineers and introduced a structured routine for planning work, daily check-ins, and reviewing progress

UPS — Phoenix, AZ
Sort Aisle Supervisor — November 2005 – May 2006

- Supervised 10+ package handlers on a fast-paced sort aisle, keeping the group on task and on schedule through every shift
- Trained new handlers on procedures and enforced safety rules consistently

ADDITIONAL EXPERIENCE

Co-Founder, Lien Into Revenue Services (2025 – Present) • **Full-Stack Engineer**, ARK Electronics (2025) • **Blockchain Engineer**, Nerd United (2022 – 2023) • **Customer Service & Cashier roles**, AutoZone, The Home Depot, JB's Restaurant (2002 – 2011)
